

Inch Series Right Size[™] Matrix Instructions – 10/21/16

The Right Size Matrices are designed to provide a quick reference for Avonite Surfaces **Right Size Program** capabilities. This program applies to Avonite Acrylic colors only. 8064 – Ice White is not a part of the program.

Avonite Acrylic sheets are possible from 27" to 60" wide and from 84" to 204" long. The Right Size Matrices identify the **minimum number of sheets required** to place an order at the width and length selected. The Right Size sheet widths are 30", 36", 42", 48", 54" and 60". The Right Size sheet lengths are 96", 120" and 144". These width & length sizes can be made to order in stock colors **without an upcharge in the per square foot price.** Other sizes not shown in the Right Size charts will be quoted on request for an additional per square foot upcharge.

The Right Size Program is broken into 3 different categories:

1. Wet Wall/Wall Cladding (8 stock colors)
2. All other 6 mm (¼") sheet (excludes the 8 colors for Wet Wall/Wall Cladding in Item 1)
3. All 12 mm (½") sheet

Example: What is minimum order quantity for 8016 White in a 36" x 120" x 12 mm (1/2") sheet size?

- 8016 - White is a Fundamentals Price Group color. Locate the 12 mm (1/2") Fundamentals Price Group minimum order matrix
- Find the 36" width column and then scroll down to the 120" length row.
- At the intersection of the 36" width and the 120" length is 64 sheets. This is the approximate minimum order quantity.

NOTES:

- The Right Size Program applies to Avonite Acrylic standard products only. The Studio Collection[®] is not available in the Right Size program.
- These matrices are for **estimation purposes** only. For an exact quantity, please obtain an official quote from Avonite Surfaces.
- Order lead times are typically 4-6 weeks depending on product and production schedule.
- All custom orders are produced to a **+/- 10%** production run. This means that you will be shipped and invoiced up to +/-10% of your order. Please take this into account when placing your order.
- Dimensional tolerances for our Avonite acrylic products are between 0.000" / +0.250" in width and -0.000" / +0.500" in length.

6 mm (1/4") - Minimum Sheet Order Quantity for Right Size™ Width/Length Sheets					
Must order minimum of 3660 sq ft (+/- 10%)
