

## Metric Series Right Size<sup>™</sup> Matrix Instructions – 10/21/16

The Right Size Matrices are designed to provide a quick reference for Avonite Surfaces' **Right Size Program** capabilities. This program applies to stock Avonite Acrylic colors only. 8064- Ice White is not included in the program.

Avonite Acrylic sheets are possible from 686 mm to 1524 mm wide and from 2134 mm to 5182 mm long. The Right Size Matrices identify the **minimum number of sheets required** to place an order at the width and length selected. The Right Size widths are 30" (762mm), 36" (914mm), 42" (1067mm), 48" (1219mm), 54" (1372mm) and 60" (1524mm). The Right Size lengths are 96" (2438mm), 120" (3048mm) and 144" (3658mm). This means the Right Size sheet sizes shown in the charts will be made to order in stock colors **without an upcharge in the per square meter price.** Other sizes not shown on the charts will be quoted on request for an additional per square meter upcharge.

The Right Size Program is broken into 3 different categories for the Avonite Acrylic sheets:

1. Wet Wall/Wall Cladding Colors (8 stock colors)
2. Other 6 mm sheet color groups (excludes the 8 colors for Wet Wall/Wall Cladding in Item 1)
3. All 12 mm sheet colors

Example: What is minimum order quantity for 8016 White in a size of 914mm x 3048mm x 12 mm?

- White is a Fundamental Price Group color. Locate the 12 mm Fundamental Price Group minimum order matrix
- Find the 914 mm width column and scroll down until the 3048 mm length row is intersected.
- At the intersection of the 914 mm width and the 3048 mm length is 64 sheets. This is the approximate minimum order quantity.

### NOTES:

- The Right Size Program applies to Avonite Acrylic standard products only
- These matrices are for **estimation purposes** only. For an exact quantity, please obtain an official quote from Avonite Surfaces.
- Order lead times are typically 4-6 weeks depending on product and production schedule.
- All custom orders are produced to a **+/- 10%** production run. This means that you will be shipped and invoiced up to +/-10% of your order. Please take this into account when placing your order.
- Dimensional tolerances for our Avonite acrylic products are between 0.000mm / +6.35 mm in width and -0.000" / +12.7 mm in length.

6 mm - Minimum Sheet Order Quantity for Right Size™ Width/Length Sheets				
Must order minimum of 340 m <sup>2</sup> (+/- 10%)				
<i>The Right Size sheets shown below are available with <u>no square meter upcharge</u> . Other sizes will be quoted on request with an additional upcharge per square meter.</i>
